It should have realistic and well-defined objectives in terms of **career advancement** or for resuming a research career after a break.

What is a "Project"?

Typical training activities may include:

- **training-through-research**: individual personalised action
- Hands-on training activities for developing **scientific** (new techniques, instruments) and **transferable skills** (proposal preparation to request funding, IPR management , task coordination, supervising & monitoring, exploitation of research results)

- Can be to an institution in the same country as the beneficiary
- Can be in the same sector although intersectoral secondment is highly encouraged
- No letter of commitment is needed.
- Different from short visit (e.g. field work), which *can* be done in a TC.

A special rule for **Global Fellowships** applies in duly justified cases.

CAR and RI

The distribution of the indicative budget of the call will be proportional to the number of eligible proposals received in each panel, except where a specific budget for a multidisciplinary panel has been fixed in the call.

However, there is a higher weighting for the proposals of the **IF Career Restart Panel (CAR)** and the **IF Reintegration Panel (RI).** During the budget distribution, the CAR eligible proposals will have a weighting of **2 times** the weighting of the eligible proposals in the other panels. For RI the weighting will be **1.5 times** higher.

	Proposals received	Proportion of proposals before weight	Funded projects before weight	Weight (as per MSCA W.P.)	Weighted proposals	Weight in percentage	Estimated funded projects with weight
total EF-ST, EF-CAR, EF-RI	10.000		1.100		11.500		1.100
EF-ST	8.000	80,00%	880,00	1	8.000	69,57%	765

Section 3 – Budget: information on the duration (person-months) to calculate the total requested EU contribution.

Section 4 – Ethics: identifies any ethical aspects of the proposed work. Even if there are no issues, you must simply confirm that none of the ethical issues apply to the proposal.

Section 5 – Call specific questions request declarations related to eligibility and personal data, together with questions on any secondment in Europe.

Proposal Part B

Of the **maximum 10 pages** applied to sections 1, 2 and 3, applicants are free to decide on the allocation of pages between the sections. However, the overall page limit will be automatically applied, and <u>excess pages will be blanked out and are irrevocably lost</u>. It is the responsibility of the applicant to verify that the submitted pdf documents are readable and are within the page limit.

Descriptors

Descriptors (keywords) are chosen by applicants to guide REA in selection of experts and allocation of proposals to the experts.

Applicants select the descriptors **in order of importance** with 1st being the most important, with a **minimum of three and a maximum of five** descriptors.

The GfA contains a breakdown of scientific areas into descriptors.

Keep in mind:

- The mandatory **first descriptor** should best characterise the subject of the proposal, and should be chosen from the area of research chosen for the proposal.

- The mandatory **second descriptor** should be within the same area of research (e.g.: CHE).

- The mandatory **third descriptor** can be from any of the eight areas of research.

Evaluation & Award Criteria

Excellence	Impact	Quality and Efficiency of Implementation
Quality and credibility of the research/innovation project; level of novelty, appropriate consideration of inter/multidisciplinary and gender aspects	Enhancing the future career prospects of the researcher after the fellowship	Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources
Quality and appropriateness of the training and of the two way transfer of knowledge between the researcher and the host	Quality of the proposed measures to exploit and disseminate the project results	Appropriateness of the management structure and procedures, including risk management
Quality of the supervision and of the integration in the team/institution	Quality of the proposed measures to communicate the project activities to different target audiences	Appropriateness of the institutional environment (infrastructure)
Potential of the researcher to reach or re-enforce professional maturity/independence during the fellowship		

Each criterion will be scored out of 5. Decimal points will be given.

Research Executive Agency

0 – Proposal fails to address the criterion and cannot be assessed due to missing or incomplete information.

1 – Poor. The criterion is inadequately addressed, or there are serious inherent weaknesses.

2 – Fair. The proposal broadly addresses the criterion, but there are significant weaknesses.

3 – Good. The proposal addresses the criterion well, but a number of shortcomings are present.

4 – Very good. Proposal addresses the criterion very well, but a small number of shortcomings are present.

5 – Excellent. Proposal successfully addresses all relevant aspects of the criterion. Any shortcomings are minor.

Evaluation & Award Criteria

European Commission

A weighed total score of the scores of the three individual criteria will be calculated and converted into a percentage of the maximum score.

Excellence	Impact	Quality and Efficiency of Implementation
Weighing		
50%	30%	20%
Priority in Case of ex-aequo		
1	2	3

An overall threshold of 70% will be applied to the total weighed score. Proposals under the threshold will be rejected.

Prioritization in case of ex-aequo

→ if necessary based on other appropriate characteristics that are

    * decided by the panel

    * related to the contribution of the proposal to the European Research Area and/or general objectives mentioned in the Work Programme

→ depends on available budget and call conditions

Research Executive Agency

Evaluation Process

- Each proposal is read and evaluated by **three evaluators** in an individual and independent manner. Each evaluator prepares an *individual evaluation report.*

- The three evaluators discuss together to reach a **unanimous consensus** on the final comments and score, and prepare a *consensus report*, containing relevant elements from the three individual reports.

- The consensus score determines the position on the ranking list.

- Applicants receive their *evaluation summary report* (i.e. a copy of the consensus report) in January.

Full details on the process are available in the <u>Guide for Applicants</u> available on the call page
