

DESIGN and GET INVOLVED in H2020 proposals within industrial energy efficiency!

START building your consortium with excellent partners in the field of industrial energy efficiency NOW

A dedicated **workshop/brokerage event on project generation in the field of energy efficiency in industrial processes** is **organized** by the European Energy Research Alliance (EERA), Joint Programme Energy Efficiency in Industrial Processes (JP EEIP), in cooperation with a **cross-fertilized team** represented by multispectral **Norwegian and European actors**.

WHY

The **aim** of this event is to generate and develop projects responding to the challenges addressed by the **Horizon 2020 framework programme for the time frame 2018-2020**, by **connecting industry, the scientific community, and the public sector**. It will provide a unique opportunity to make new contacts, establish new partnerships and develop projects in a multisector approach.

WHO

This event targets a wide spectrum of participants with complementary skills, both in terms of expertise as well as project roles (from project participants to project coordinators, via project idea owners). In particular it targets the following groups:

- Norwegian industry community
- European Energy Research Alliance (EERA) JP EEIP
- A.SPIRE
- SET Plan Implementation Working Group 6

WHAT & HOW

The workshop/brokerage event is planned as a full-day event, focusing on relevant energy efficiency topics addressing utilization of excess heat, energy efficient processing, energy clusters and energy storage solutions. Detailed information of the calls is available in the attached documents.

After an initial presentation of the relevant calls, there will be parallel working group sessions focusing on distinct calls, with the participation of National Contact Points for H2020 Energy to support and advice during the discussions.

In order to make the workshop efficient, structured and successful, the participants will be invited to provide an outline of their project ideas/expertise and/or challenges prior to the event.

WHERE & WHEN

The event will be held in Brussels on April 11th (Venue SINTEFS new office in Brussels, address Guimard 9). The deadline for registration and for submission of project ideas/expertise is end of March.

REGISTRATION

The event is free of charge, registration mandatory! Registration is done by sending e-mail to contact persons as listed below – we need Name, affiliation, company, and topic interest. We certainly also welcome project ideas to be presented at the workshop, please fill in the attached template for project idea and send to contact persons no later than a week before the workshop (4th April).

Please note that due to the size of the meeting room, registrations will be accepted on a «first come-first served» basis (~50).

For further information, please contact:

Petter E. Røkke, petter.e.rokke@sintef.no – EERA JP EEIP Coordinator

Berta Matas Guell, berta.guell@sintef.no – EERA Secretariat

PRELIMINARY PROGRAMME

09:00 Registration and welcome coffee/tea

09:30 Introduction: setting the scene

10:00 Presentation of relevant H2020 Energy efficiency topics

10:45 Coffee/Tea

11:15 Pitching of project ideas

12:30 Working groups session 1

12:30 Lunch

13:30 Working Groups session 2

14:30 Coffee/Tea

15:00 Working Groups session 3

16:15 Summary and next steps

16:30 Closing
