Step 3

Create a Draft Proposal

Please enter the following information to create a draft proposal. Please note that fields marked with a star (*) are mandatory.

It is highly recommended to submit your proposal as early as possible and at least 48 hours prior to the deadline of this call. This will avoid being confronted with incompatible local IT configuration settings shortly before the call deadline, when insufficient time would be left to handle it. There is no reason in delaying the submission for confidentiality concerns as the system does not allow any access to the proposals before call deadline or cut-off (other than to selected data that is part of the Submission and Evaluation of Proposals Assent Disclaimer).

You can submit the proposal as many times as you wish up to the deadline. Every submitted version will replace the previously submitted one.

5-Call-specific questions

Extended Open Research Data Pilot in Horizon 2020

If selected, applicants will by default participate in the **Pilot on Open Research Data in Horizon 2020**, which aims to improve and maximise access to and re-use of research data generated by actions. However, participation in the Pilot is flexible in the sense that it does not mean that all research data needs to be open. After the action has started, participants will formulate a **Data Management Plan (DMP)**, which should address the relevant aspects of making data FAIR, findable, accessible, interoperable and re-usable, including what data the project will generate, whether and how it will be made accessible for verification and re-use, and how it will be curated and preserved. Through this DMP projects can define certain datasets to remain closed according to the principle "as open as possible, as closed as necessary". A Data Management Plan does not have to be submitted at the proposal stage. Furthermore, applicants also have the possibility to opt out of this Pilot completely at any stage (before or after the grant signature). In this case, applicants must indicate a reason for this choice (see options below). Please note that participation in this Pilot does not constitute part of the evaluation process. Proposals will not be penalised for opting out.

We wish to opt out of the Pilot on Open Research Data in Horizon 2020. Yes No

Further guidance on open access and research data management is available on the participant portal: http://ec.europa.eu/research/participants/docs/h2020-funding-guide/cross-cutting-issues/open-access-dissemination_en.htm and in general annex L of the Work Programme.

According to article 43.2 of Regulation (EU) No 1303/2013 of the European Parliament and of the Council, of 11 December 2013, laying down the rules for participation and dissemination in 'Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006.

EURAXESS – Researchers in Motion

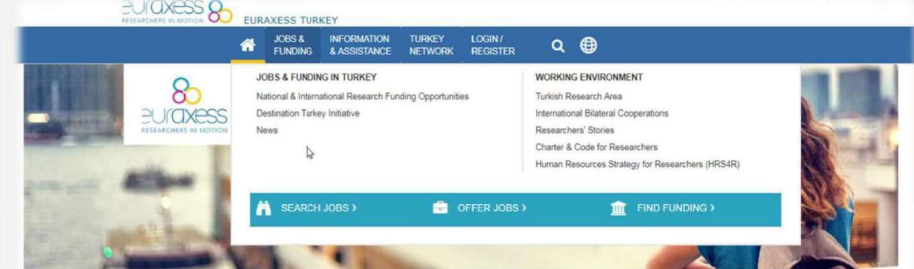

Welcome

EURAXESS - Researchers in Motion is a unique pan-European initiative delivering information and support services to professional researchers. Backed by the European Union and its Member States, it supports researcher mobility and career development, while enhancing scientific collaboration between Europe and the world.

EURAXESS is also your gateway to Science4Refugees, a Commission's initiative helping refugee researchers find suitable jobs in today's challenging research landscape. Part of the initiative, is the Science4Refugees Research

EURAXESS TÜRKİYE

Welcome to EURAXESS in Turkey

EURAXESS is a platform for researchers, entrepreneurs, universities and businesses to interact with each other and a joint initiative of the European Commission with the 40 countries participating in the European Union's Horizon 2020 Programme for Research. Turkey is one of them.

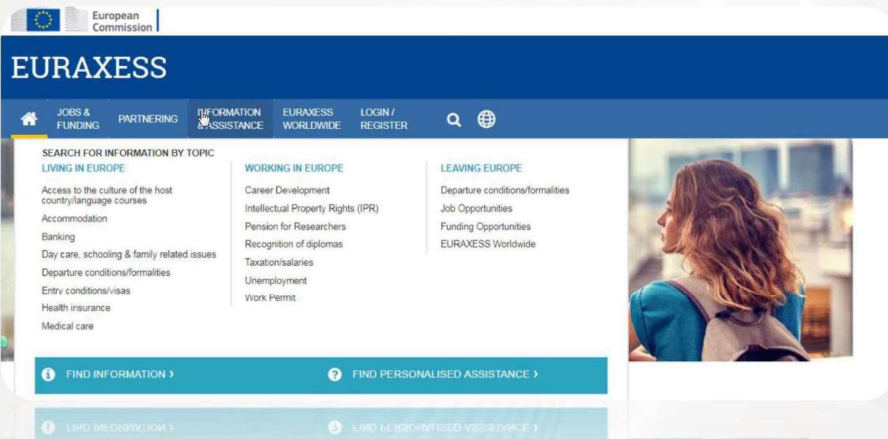

We provide information and assistance to researchers via this portal and with the support of our national EURAXESS Centres. The Service Centres in TURKEY help researchers and their family to plan and organize their move to TURKEY, and assist with all matters related to mobility.

Researchers coming to TURKEY can use this portal to get practical information concerning professional and daily life, as well as information on research jobs and funding opportunities in TURKEY.

Researchers leaving TURKEY can use this portal to get information about funding opportunities in TURKEY and can also check their destination countries' EURAXESS portals to get information about their opportunities.
