

#ChallengeMyCity

Enabling cities

to test **innovative** mobility solutions.

What is it?

#ChallengeMyCity is a programme dedicated to **European cities**. It allows them to test innovative mobility solutions that can be rolled out more widely if successful.

#ChallengeMyCity helps the city to **define** a project, then determines the specific **challenges** to be met, tests **solutions** that respond to the challenges, and evaluates the results.

How does it work?

Analysing

Tailored workshops with the city identify the challenges that #ChallengeMyCity could tackle

Funding

Up to 180.000 €

3 solutions can be tested over a 6-8 month period

Involving

Citizens are encouraged to try the solutions and give feedback

Evaluating

Both the impact of the solutions and their long-term viability

Urban Mobility

Co-funded by the
European Union
