Calls for proposals

Calls for proposals are funding opportunities issued by the European Union institutions, agencies and bodies. These are direct financial contributions, known as grants, that are awarded to third-party beneficiaries (e.g., research organisations, governmental organisations, and private companies) to engage in activities that serve EU policies.

Digital, Industry and Space

Call - STRATEGIC AUTONOMY IN DEVELOPING, DEPLOYING AND USING GLOBAL SPACE-BASED INFRASTRUCTURES, SERVICES, APPLICATIONS AND DATA 2023

HORIZON-CL4-2023-SPACE-01

Conditions for the Call

Indicative budget(s)²⁷⁷

Topics	Type of Action	Budgets (EUR million)	Expected EU contribution per project (EUR million) ²⁷⁸	Indicative number of projects expected to be funded
Opening: 22 Dec 2022 Deadline(s): 28 Mar 2023				
HORIZON-CL4-2023-SPACE-01-11	IA	10.10 ²⁷⁹	1.00 to 2.50	5
HORIZON-CL4-2023-SPACE-01-12	RIA	15.00 ²⁸⁰	0.50 to 2.50	7
HORIZON-CL4-2023-SPACE-01-13	CSA	2.00	Around 2.00	1
HORIZON-CL4-2023-SPACE-01-21	RIA	20.00 ²⁸¹	Around 20.00	1
HORIZON-CL4-2023-SPACE-01-22	RIA	23.10 ²⁸²	4.00 to 10.00	4
HORIZON-CL4-2023-SPACE-01-23	RIA	10.00 ²⁸³	2.00 to 5.00	3
HORIZON-CL4-2023-SPACE-01-31	RIA	8.60 ²⁸⁴	2.00 to 3.00	3

²⁷⁷ The Director-General responsible for the call may decide to open the call up to one month prior to or after the envisaged date(s) of opening.
The Director-General responsible may delay the deadline(s) by up to two months.
All deadlines are at 17:00 (9) Brussels local time.
The budget amounts are subject to the availability of the appropriations provided for in the general budget of the Union for years 2023 and 2024.

²⁷⁸ Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.

²⁷⁹ Of which EUR 5.00 million from the NGEU Fund Source.

²⁸⁰ Of which EUR 7.50 million from the NGEU Fund Source.

²⁸¹ Of which EUR 8.00 million from the NGEU Fund Source.

²⁸² Of which EUR 9.00 million from the NGEU Fund Source.

²⁸³ Of which EUR 4.00 million from the NGEU Fund Source.

²⁸⁴ Of which EUR 4.00 million from the NGEU Fund Source.

HORIZON-CL4-2023-SPACE-01-62: Quantum Communication Technologies for space systems

Specific conditions

Expected EU contribution per project	The Commission estimates that an EU contribution of between EUR 2.00 and 2.50 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
---	--

Indicative budget	The total indicative budget for the topic is EUR 5.00 million.
--------------------------	--

Type of Action	Research and Innovation Actions
-----------------------	---------------------------------

Eligibility conditions	The conditions are described in General Annex B. The following exceptions apply:
-------------------------------	--

If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used).

In order to achieve the expected outcomes, and safeguard the Union's strategic assets, interests, autonomy, and security, it is important to avoid a situation of technological dependency on a non-EU source, in a global context that requires the EU to take action to build on its strengths, and to carefully assess and address any strategic weaknesses,

attainment of its ambitions. For this reason, participation is limited to legal entities established in Member States, Norway, Iceland and the United Kingdom. The eligibility of entities established in the United Kingdom to participate is conditional upon the following: (i) the United Kingdom is associated to Horizon Europe, and (ii) the United Kingdom's equivalent space calls are published and open to the EU entities on a reciprocal basis.²⁹² Both conditions must be fulfilled on the date of the opening of this topic for submission.

For the duly justified and exceptional reasons listed in the paragraph

the Union and its Member States, entities established in an eligible country listed above, but which are directly or indirectly controlled by a non-eligible country or by a non-eligible country entity, may not participate in the action unless it can be demonstrated, by means of guarantees provided by their eligible country of establishment, that their participation in the action would not negatively impact the Union's strategic assets, interests, autonomy, or security. The guarantees shall include, in particular, that, for the purpose of the action, measures are in place to ensure that:

a) control over the applicant legal entity is not exercised in a manner that restrains or restricts its ability to carry out the action and to deliver results, that imposes restrictions concerning its infrastructure, facilities, assets, resources, intellectual property or know-how needed for the purpose of the action, or that undermines its capabilities and standards necessary to carry out the action;

b) access by a non-eligible country or by a non-eligible country entity to sensitive information relating to the action is prevented, and the employees or other persons involved in the action have a national security clearance issued by an eligible country, where appropriate;

c) ownership of the intellectual property arising from, and the results of, the action remain within the recipient during and after completion of the action, are not subject to control or restrictions by non-eligible countries or non-eligible country entity, and are not exported outside the eligible countries, nor is access to them from outside the eligible countries granted, without the approval of the eligible country in which the legal entity is established.

Technology Readiness: Level	Activities are expected to achieve TRL 5-6 by the end of the project – The reference TRL definition is the ISO 16290:2013 applicable to the space sector.
------------------------------------	---

Legal and financial set-up of the Grant Agreements	The rules are described in General Annex G. The following exceptions apply: Eligible costs will take the form of a lump sum as defined in the Commission Decision on the rules for the management of contributions under the Horizon Europe Programme – the Framework Programme for Research and Innovation (2021-2027) – and in actions under the Research and Training Programme of the European Atomic Energy Community (2021-2025). ³⁰²
---	---

Security Sensitive Topics	background and/or producing of security sensitive results (EUCI and SEN). Please refer to the related provisions in section B Security – EU
----------------------------------	---

Proje Ortağı Nasıl Bulunur?

1. AÇIK OLAN ÇAĞRILARA İLGİ GÖSTEREN DİĞER PAYDAŞLARA ULAŞABİLİRSİNİZ

1. Çağrının isterleri (**expected outcomes**) neler?
2. Çağrı için sunulabilecek projenin hangi iş paketleri olabilir?
3. Siz hangi iş paketlerinde görev alabilirsiniz?
4. Bu konuda **tecrübe & yetenekleriniz** neler?
5. Aynı çağrı ile ilgilenen, farklı iş paketlerinde görev alabilecek paydaşlarla tanışın.
6. **Konsorsiyum** kurmak için toplantılar gerçekleştirin!

2. GEÇMİŞTE BENZER ÇAĞRILARDA BAŞARI GÖSTEREN KURULUŞLARA ULAŞABİLİRSİNİZ

- Benzer alanda açılan yeni çağrılar için de proje fikirleri var mı?
- Konsorsiyumları var mı?
- Sizin uzmanlık alanlarınızda bir ortağa ihtiyaçları var mı?

İLETİŞİME GEÇİN!

Seeking electric battery end users for HORIZON-CLS-2022-D2-01-05 call

Seeking collaborator:

End User

4

Seeking expertise:

Rail sector Aircraft Maritime Automobile Electric battery

The [redacted] project represents 11 different partners from eight countries, specialized in a wide variety of disciplines including multiple battery cell technologies, computational modeling, battery design and testing, SHM, materials, chemistry, and recycling. We are currently in the process of identifying potential end users to provide use case specifications for lithium batteries (either liquid electrolyte-based or solid state) for use in market-oriented applications in the aircraft, automobile, maritime, and rail sectors.

Please note that the call text specifically imposes a restriction on all projects in that integration of the batteries designed in projects is "not" supported within the scope of the call, so we can only go up to the point of designing as close to "drop-in-replacement" type packs as possible.

Know a potential collaborator for this opportunity?

Jeremy wants to find the best possible collaborator worldwide for this opportunity, and so has opened it to individuals from outside the CrowdHelix Network.

Share this opportunity

Project description

DE EN ES FR IT PL

Enhancing the electric and hybrid-electric vehicle market with new generation battery systems

Electric and hybrid-electric cars will be a key feature of the automotive industry in the future. To maximise the market uptake of these vehicles, concerns relating to their battery range, cost, reliability and charging times will need to be tackled. Addressing this, the EU-funded ALBATROSS project aims to develop fast-charging, cost-effective, efficient and reliable battery systems with next-generation thermal management technologies that will provide the electric and hybrid-electric passenger car market with innovative solutions. The project will bring together the expertise of 21 partners from 10 countries.
