PARTNER LIST

Please add the partners of your project consortium. Please be aware that in order to be eligible consortium composition has to follow the rules outlined in the Section 5.2.1 of the Call Announcement "Project consortia must be comprised of a minimum of three partners from at least three Member States or Associated Countries participating in the call and must be eligible to request funding from the FOs participating in this call and providing funding for the selected topic. There is no rule for setting out the maximum number of partners that may participate in a consortium. The number should be appropriate to meet the project goals and should remain manageable (experience from past calls indicates a range of 4-8 partners per project)". Optionally, you can also add associated partners. Those associated partners are not requesting funding.
