

FUNDACION PARA LA INVESTIGACIÓN, DESRROLLO y APLICACIÓN DE LOS MATERIALES COMPUESTOS

FIDAMC, José M^a Barranco

Research Center

Josemaria.barranco@fidamc.es

1. Your organization and capacities

Pioneers of advanced manufacturing solutions for a cost-effective, lightweight and sustainable mobility of the future.

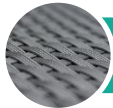

Key Figures

11 M€
2023

75+
Highly Skilled professionals

9000 M²
At the forefront of equipment

Technologies

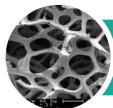

Thermosets

Thermoplastics & Dry Fiber

Additive Manufacturing

Robotics

Services

Engineering

**Manufacturing and
assembly**

**Robotics and
Automatization**

Laboratory & QEM

1. Your organization and capacities

Headquarters. Tecnocenter Madrid

Illescas.

H2 Tanks Development. RTM. Out of Autoclave Technologies

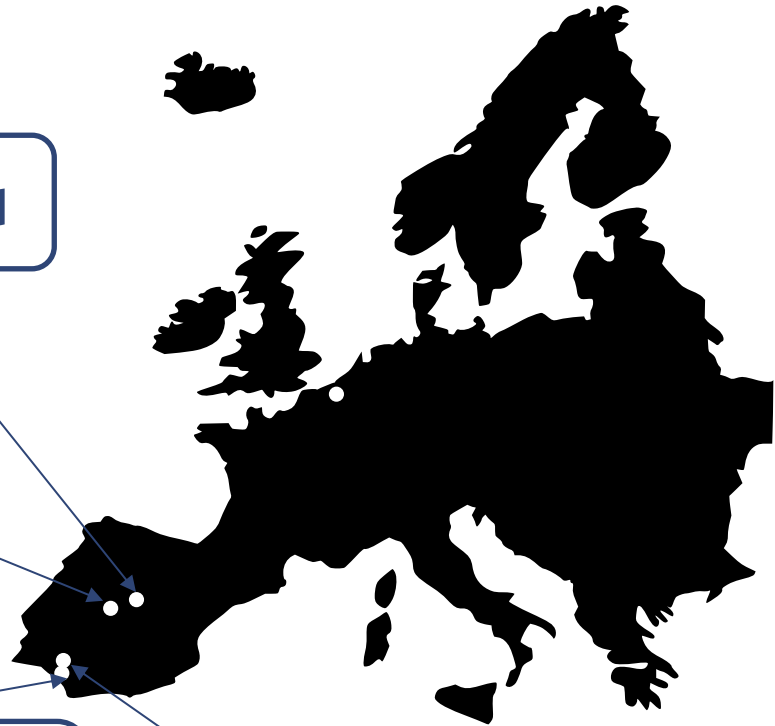

CFA. Centro de Fabricación Avanzada. Cádiz

Advanced Manufacturing Center. Robotics, 3D printing, metrology, AR/VR and drones technology.

Short series & Thermoplastics. Andalucía

UAVs Manufacturing center, Thermoplastics Center of Excellence, Training

Comming soon...

2. Topics of interest in calls 2025

Topic	Experience and Contribution
HORIZON-JU-CLEANH2-2025-02-02: Development of cost effective and high-capacity compression solutions for hydrogen	Experience in manufacturing of H2 tanks in composite material
	Looking for development of iso/orthogrid tanks for H2 crio-compressed transport & storage
