# SCOPE

- This Guide is an UNOFFICIAL document prepared by RADIANCE, the EU-funded project of National Contact Points (NCP) for the Marie Skłodowska-Curie Actions (MSCA).
- The information contained in this document is intended to assist and support, unofficially and practically, anyone submitting a proposal to the MSCA Postdoctoral Fellowships Call with the **deadline of 9<sup>th</sup> September 2026**.
- This document is not, by any means, a substitute for official documents published by the European Commission, which in all cases must be considered binding. As such, this document is to be used in addition to the official call documents: **MSCA Work Programme 2026-2027** and **Guide for Applicants for PF**.
- This step-by-step submission guide with visual aids will help applicants navigate the proposal submission process in the Funding & Tender Opportunities Portal.
- Please contact the MSCA NCPs of your country for further inquiries about the MSCA Postdoctoral Fellowships (PF) Call.
- Please contact [ncpmobility@tubitak.gov.tr](mailto:ncpmobility@tubitak.gov.tr) for further inquiries about this guide.

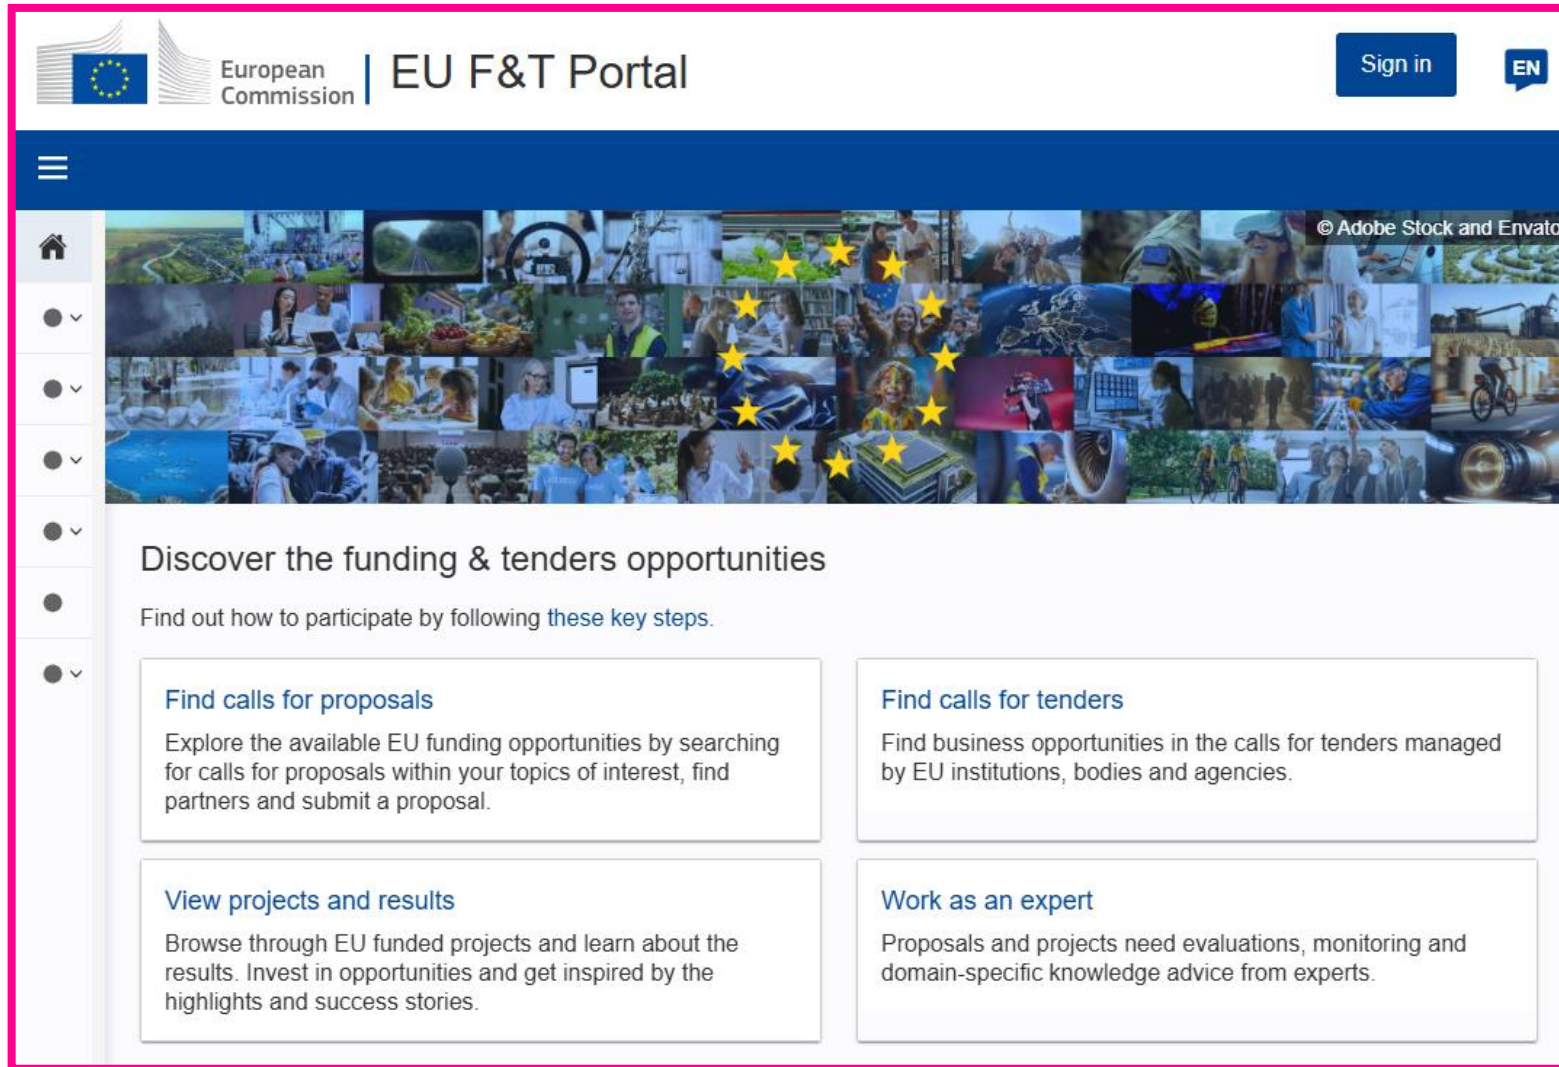

National Contact Points (NCPs) have been set up across Europe and beyond by the national governments to provide information and personalised support to HE applicants in their native language. The mission of the NCPs is to raise awareness, inform and advise on HE funding opportunities as well as to support potential applicants in the preparation, submission and follow-up of grant applications. For details on the NCP in your country, please consult the National Contact Points website:

<https://horizoneuropencpportal.eu/ncp-networks/msca/find-your-ncp>

Now, please follow the steps to submit your MSCA-Postdoctoral Fellowships proposal via the Funding & Tenders Opportunities Portal.

# Open EU Funding & Tenders Portal

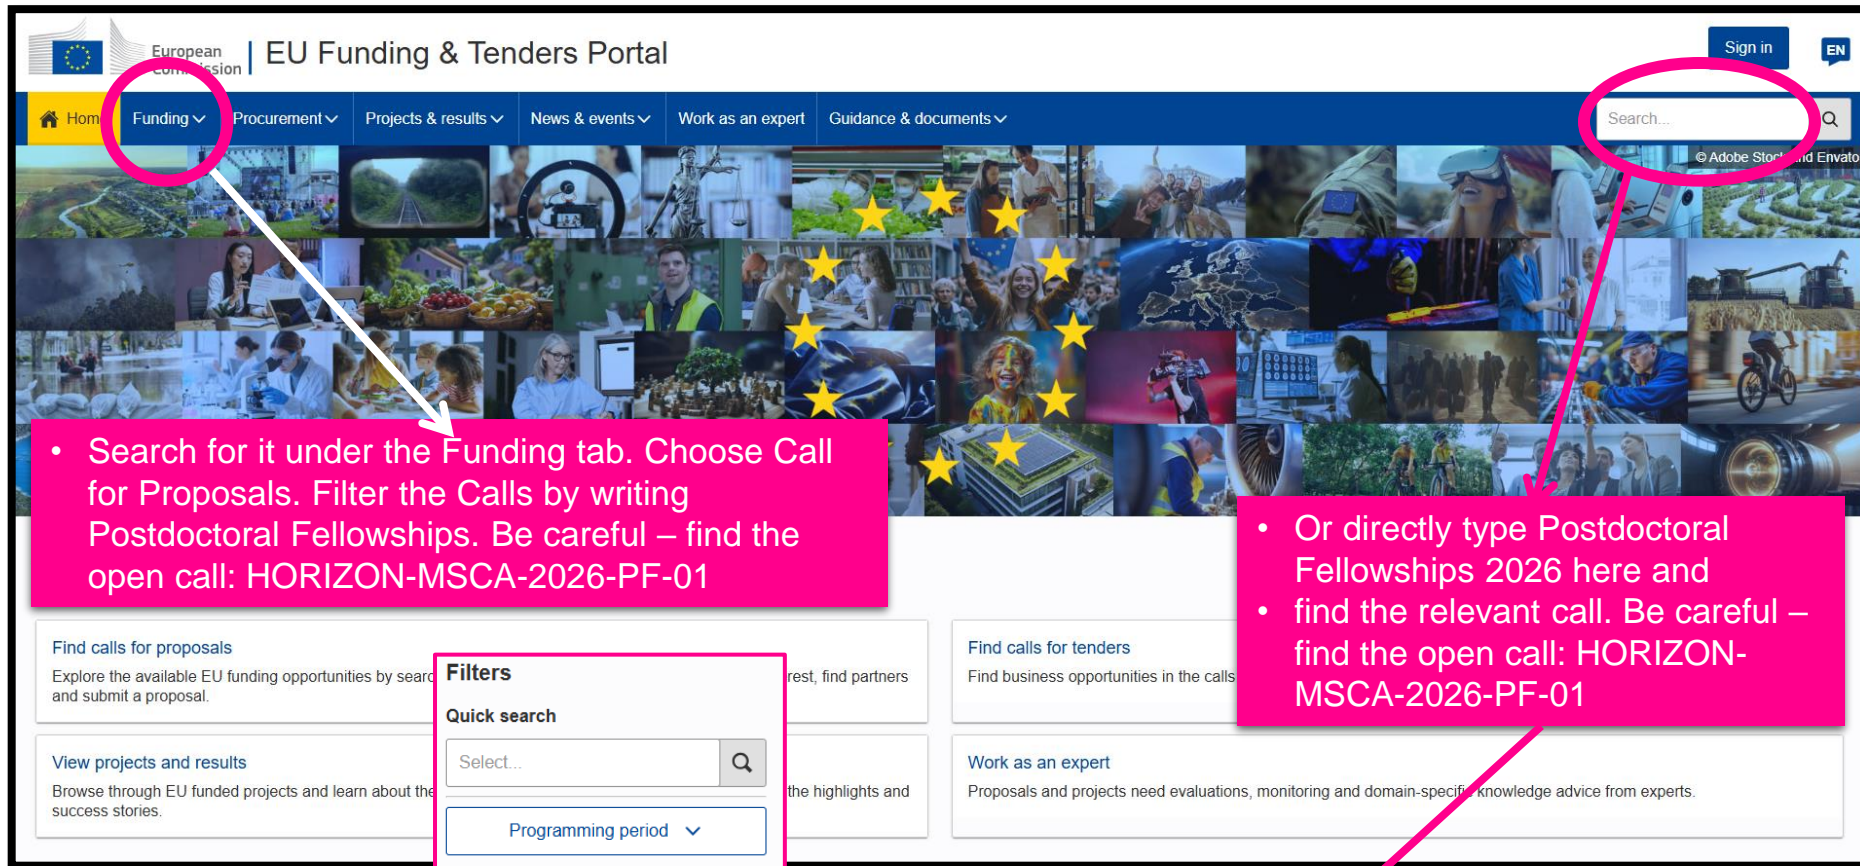

Click on the link: <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home>

The screenshot shows the homepage of the EU F&T Portal. At the top left, there is the European Commission logo and the text 'European Commission | EU F&T Portal'. To the right, there are 'Sign in' and 'EN' buttons. Below the header is a large banner image with a collage of various scientific and technological scenes, overlaid with several yellow stars. Below the banner, the text reads 'Discover the funding & tenders opportunities' followed by 'Find out how to participate by following these key steps.' There are four main content boxes arranged in a 2x2 grid:

- Find calls for proposals**: Explore the available EU funding opportunities by searching for calls for proposals within your topics of interest, find partners and submit a proposal.
- Find calls for tenders**: Find business opportunities in the calls for tenders managed by EU institutions, bodies and agencies.
- View projects and results**: Browse through EU funded projects and learn about the results. Invest in opportunities and get inspired by the highlights and success stories.
- Work as an expert**: Proposals and projects need evaluations, monitoring and domain-specific knowledge advice from experts.

Please submit your proposal at the latest 48 hours before the deadline (to avoid system congestion or system incompatibility issues). Late proposals will not be accepted. Don't wait until the end because you don't want to risk about confidentiality – we will not open the proposals before the deadline.

Terms and Conditions for the Submission of Applications

Please read and accept this disclaimer to proceed with the creation of your draft proposal:

**Proposal data**

1. **Confidentiality:** Applications (and any additional information provided for the award) will be considered confidential and treated according to the same principles as those set out in the grant agreement. We may in particular have to share applications with other EU institutions and bodies in order to perform the pre-award checks required by the EU Financial Regulation. Please also be aware that we may have to publish the information contained in the Abstract/Short Summary and Keywords in Part A. Please avoid adding any confidential information in that section.

2. **Access to pre-registration data:** Please be aware that certain information from the draft proposals will be accessed by us before the call deadline, in order to plan the evaluation. This concerns call ID, topic ID, type of action ID, participant identification code (PIC), project acronym, abstract, panel and keywords.

I agree that the pre-registration data becomes available to the European Commission services prior to call closure.

I wish that the pre-registration data does not become available to the European Commission services prior to call closure.

(Applicants are advised to use this option only in well justified cases, as it hinders the planning of the evaluation process and the timely processing of proposals).

**Technical requirements**

3. **Part B file format:** Part B of the Application Form (Technical Description) must be uploaded as PDF (equivalent to Adobe Acrobat v5 or higher, with embedded fonts).

4. **Part B page limits:** Applications are subject to the page limits set out in the call conditions. Excess pages will be made invisible and not available to the evaluators. Mandatory annexes and supporting documents do not count towards the page limit.

5. **Time constraints:** Preparation and uploading of the files in the Submission System may take some time. Don't wait until the end. Problems due to last minute submissions (e.g. congestion, etc) will be entirely at your risk.

**Submission**

6. Applications must be submitted before the call deadline. You can withdraw your application or make changes to it, provided this is done before the call deadline. Submission of a new application overwrites the previous version.

**Personal Data**

7. Personal data linked to the application, evaluation or award of grants, prizes and contracts will be processed in accordance with the [Funding & Tenders Portal Terms and Conditions and Privacy Statement](#)

4. Do you wish to participate to the ERA Postdoctoral Fellowships and thus increase your chances of being funded? If you don't reply or if you maintain 'No' as your answer, be aware that your proposal will not benefit from an extra chance of being funded under the ERA Postdoctoral Fellowships in case it cannot be funded under the MSCA Postdoctoral Fellowships (MSCA-PF). A dedicated budget from the Work Programme "Widening participation and strengthening the European Research Area" has been set aside to fund those proposals. European Postdoctoral Fellowships proposals where the host organisation is located in an eligible widening country (according to the PIC number) but were not funded under MSCA-PF call due to a lack of budget, can be automatically duplicated into the ERA Postdoctoral Fellowships call. Eligible proposals will be duplicated into the ERA Postdoctoral Fellowships call only if you express your wish to do so. Your decision not to participate in the ERA Postdoctoral Fellowships will not affect your chances of being funded under the MSCA-PF call.

5. Are the research and training activities proposed addressing topics related to nuclear sciences and technology, as outlined in the Guide for applicants for this call and the Euratom Research and Training Programme (ERTP)?

• You will see other specific questions to define your specific situation on the Project. Answer each of them accordingly.

• If you would like to participate in the ERA Fellowship option, do not forget to confirm your decision here by clicking YES.
